- 3) There will be a 15% sales commission on each lot. 30% commission for all late entries and/or substitutions, **no exceptions**. Late entries and/or substitutions will be sold at the **end of the sale, time permitting, at the discretion of the auctioneer and organizing committee**.
- 4.) **There will be no pass outs or reserve bids allowed.**
- 5.) Only purebred poultry and animals will be accepted. All animals will be inspected for cleanliness, health, and purity of breed upon arrival by the designated receiving

committee and only suitable items will be accepted. Inanimate items must be clean and in good working order, unless sold for parts. **All decisions are final.**

6.) All containers must be constructed in a manner which will allow the public to view its contents without removal from the box. E.g. a screen or wire front/viewing window. Please construct cages with the animal's wellbeing the top priority. Please ensure that the boxes used for ducks, geese, peafowl and turkeys are of sufficient strength so as not to disintegrate during handling on sale day.

Lots with inadequate boxing/crating will not be accepted.

Suggestion(s): - Add an additional layer of cardboard or plywood to the outside bottom of the box.

- Because water is subject to spillage and creating a mess, put fruit or vegetable bits into the container(s) instead. Not only does this provide a source of moisture, but it also gives the "critters" something to do.

7.) All items will be sold in the container they arrive in so ensure any prospective buyer can clearly see what you have to offer.

WINNING BID IS TIMES THE NUMBER OF ANIMALS OR ITEMS IN LOT (\$ BID AMOUNT X # OF ANIMALS = TOTAL \$ PER LOT. Exceptions will be noted on sale catalogues. Example: \$15 bid amount times trio(3) of Orpingtons = \$45 total

8.) ALL BOXES, CRATES AND CONTAINERS MUST BE IDENTIFIED WITH A BOX TAG THAT INCLUDES:

~ Consignors name, address and phone number

~ Breed, colour, sex, age and quantity of contents of box.
